### Did this session meet your expectations?

### How can we improve this business session?

Working through an example in class and fill out a balance sheet and income statement.

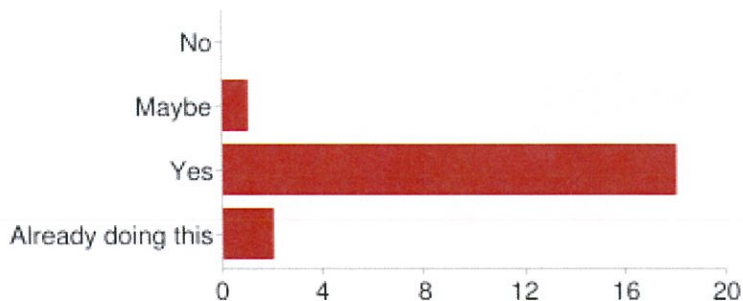

More information and more time on these subjects

It was very good and practical to invite a farmer who is actually keeping great records. Mr. Leonard has a proven system in place and the demonstration of it proved what good record keeping can do for the farmer. Having a farmer who is utilizing a proven record system from day 1 drove home how important this piece of the puzzle is to the overall success of the farm business. It would have been great if Mr. Leonard would have had more time on the agenda. At least another 1/2 hour would have been good.

Gentle harmony did a great job on record keeping and the importants of it

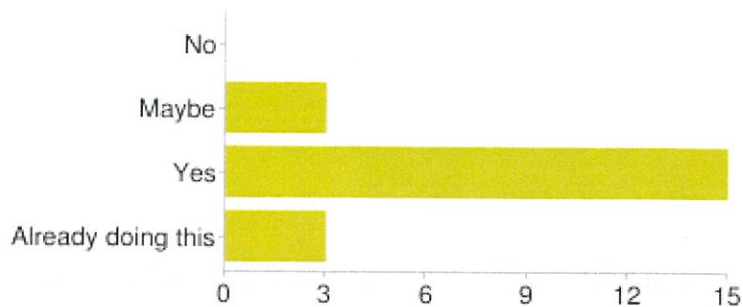

Spread it over two sessions to cover more details.

### Develop a system of record keeping for your farm? [Please choose the response that describes your ability to plan your Farm Financial Statements.]
